Entered at the Postoffice at Honolulu as second-class matter.

WEDNESDAY JANUARY 20, 1909

Before Governor Freat starts one of the Roosevelt Anahulu clubs he should tell the people all about the inside history of the Mahuka site trade.

Is there any reason why the Delegate to Congress from Hawaii should accept as in any way conclusive or representative the mandate of the Civic Federation?

NATIONAL GUARD INCREASE.

Assuming that the Territorial authorities will actively support measures for an increase of the National Guard, they should have the united and enthusiastic assistance of every patriotic citizen of the Territory.

For various reasons the appropriations for the National Guard of Hawaii have been a favorite object of attack from country members and not a few of the Honolulu representatives. This branch of the Government has been considered by many as rather useless. Money has been sought for other purposes and there has not been enough to go around.

Let our present Legislature gain experience from the past, and regard the future as becomes far-sighted patriots.

Since the Federal Government places these islands in the position of first importance as a guard for the Pacific Coast, and has therefore laid plans for a strong military post, it is the plain duty of our citizens to supplement the National Government in every way possible.

This can be done by providing for a larger, stronger and efficiently trained militia.

ALIENATING FRIENDS AND STRIKING THE FLAG.

The movement to force the suspension of the coastwise shipping laws at the present session of Congress must put Hawaii in the unenviable position of joining the forces that are indifferent to the principle of protection, which is the very life-blood of our industrial prosperity.

It is opposed to the advice and good judgment of the United States Senators of California, who have always come to the assistance of the islands in securing favorable legislation.

It is in opposition to the directly expressed request of the San Francisco Chamber of Commerce, that has invariably backed up the appeals of our local people for active support of measures that will aid in the development of American interests in the Pacific.

It is a part and parcel of the general drift of events fostered by the foreign ship lobby toward wiping the American flag completely off the face of the waters.

It is ill-advised for Hawaii at the present time and unworthy a people who understand so well how important it is that American shipping should be protected and built up, rather than thrown open to added and ruinous competition.

The mere fact that the persons engaged in the contest against American ships must appeal by innuendo to prejudice and question the motives of those who believe in maintaining American shipping in the Pacific is evidence of a low standard of citizenship. The criminal usually attacks the motives of honest men.

There is no doubt that the coastwise shipping law was not enacted for the Territory of Hawaii.

The member of Congress who hates Hawaii and has false opinions of the conditions in this Territory might with equal show of love for his country arise in his place in the United States Congress and announce that the laws governing Territories were not passed for non-contiguous territory and there is no reason why these particular islands of the Pacific should continue to enjoy industrial benefits on an equality with the mainland.

The assurance given by the President of the United States and by certain leaders of Congress, not named, that this exception from the protective plan will go through without adverse results will sound much more reassuring to the ordinary thinking mind, after the tariff Congress has completed its work and the schedules that involve Hawaii are safe. The

capacity which some of the otherwise able men of this Territory have suddenly developed for dividing with such exactitude our tariff future is extraordinary if not conclusive.

Hawaii cannot always be a beneficiary without reciprocity and expect to retain the cordial support from friends of the mainland which it has been so fortunate to secure and hitherto hold.

The request of San Francisco's Chamber that the local organization should not take action adverse of the suspension of the coastwise law cannot be answered by the response that "the President and the fellows in Congress say it is all right, so we feel that we are justified in not listening to our San Francisco friends." The cabled admonition of the San Francisco Chamber is in many respects a most extraordinary proceeding, and it must therefore be accepted that the business men of our sister city believed the situation called very positive declarations. Honolulu cannot afford to remain indifferent to that cable or to reply in effect "You attend to your business and we will to ours."

Back of the whole proposition of expediency and the balancing of advantages is the question of the patriotic duty of a community in a position to understand the vital importance of the predominance of the American flag in the commerce of this ocean.

It is not the part of the patriot to promote any measure that will lower the flag of his country on any ship that floats.

Far better is it for Hawaii to build up its own fleet of American ships under the American flag, ships that will carry our tourists in steadily increasing numbers, than to turn aside and accept as final the ruin of the American merchant marine.

WILL ANGLO-SAXON STOCK SURVIVE IN AMERICA?

(PROF. RIPLEY in Atlantic Monthly)

Along with the great increase in immigration has come a remarkable change in its character. Whereas in 1876 only 20,000 Italians landed on the western shores of the Atlantic, no fewer than 300,000 arrived in the year 1907. In the decade 1860-1870 the British Isles, Germany, Scandinavia, and Canada supplied 90 per cent. of our immigrants; in 1890-1900 only 41.8 per cent. But Austria-Hungary, Italy, and Russia, which in 1860-1870 sent only 1 per cent., in 1907 contributed about

500,000. Classifying the immigration to America in 1907, according to race groups, Mr. Ripley finds the result to be as follows:
Alpine race 194,000—1-6th
Jewish race 146,000—1-8th
Mediterranean race 330,000—1-4th
Slavic race 330,000—1-4th
Teutonic race 194,000—1-6th

* Mainly Russian.
Some of the statistics in Mr. Ripley's paper are as startling as they are interesting.

city, and no disease could be carried by the water mains, the water being always pure. The much-talked-of Nuuanu Dam will lose none of its value, for all the water conserved there will be used to create electrical power to run additional pumps throughout the city—this in itself a great saving in expense. We are told by Mr. Campbell that his plan will be embodied in the Governor's message to the Legislature. This shows that it is not something in theory but that it is practical and profitable.

As the Campbell plan seems to be one of "the greatest good to the greatest number," we feel that it should be heartily endorsed by everyone who has the welfare of the community at heart. The Wai'alae, Kaimuki and Palolo Improvement Club feels particularly called upon to support the scheme, as it is an improvement pure and simple and well within the scope for action. May we ask your Improvement club to look into the proposed Campbell plan, and give it the support it merits?

Mr. Newell of the Reclamation Service said in his address before the Engineers' Association: "Honolulu's population will only be limited by its water supply."

Now, if we can make this endless supply available the fact that it is absolutely pure and all of artesian origin, will remove one of the greatest barriers in the way of the Greater Honolulu.

D. W. ANDERSON,
Secretary Wai'alae, Kaimuki and Palolo Improvement Club.
EMIL A. BERNDT, President.

WATER! WATER! IS CRY FROM KAIMUKI

Letter Sent Out To Clubs To Enlist Their Support

HONOLULU'S POPULATION IS LIMITED BY WATER SUPPLY

Campbell Plan Is Presented for Approval—Legislature To Be Asked To Make Appropriation

Kaimuki and Wai'alae residents want better water. They must have it. With a view to gaining what is necessary from the Legislature the following letter has been sent out to the various improvement clubs of the city:

Honolulu, T. H., Jan. 20, 1908.
Gentlemen:—For some time past the Wai'alae, Kaimuki and Palolo improvement Club has endeavored to improve its water system and supply. The club is particularly aggressive just now, as the Legislature is to convene next month, will be asked for relief.

The administration is well aware of the urgent needs of this district but is powerless until the Legislature makes the necessary appropriations. In fact, the administration admits grave deficiencies throughout Honolulu's entire water system, and is now working on a plan that will not only provide properly for Kaimuki but will perfect the whole system. The plan originates with Mr. Marston Campbell and is to supply the whole city with artesian well water. The supply from this source can be increased so as to take care of a city many times the size of Honolulu at present—in fact it is unlimited. Under the proposed system the possibilities of infection will be done away with entirely, for only artesian water will flow in all districts of the

GRAND JURIES BUSY; DEFENDANT ESCAPES

Both the Federal and the Territorial Grand Juries were in session today. The former has completed the High wage agitation cases as well as the Statton postoffice case, and is expected to report next Monday, as this is the first day on which Judge Dole's court will be in session, and as the Court will go to Hilo for the Hawaii term on Tuesday.

The Territorial Grand Jury handled a lot of criminal cases, among them being that of Aloheka, the man who assaulted a man and a woman with a hammer in Kewalo a couple of weeks ago; and of Sato, a Japanese who shot a fellow-countryman on Vineyard street some time ago. The police have been unable to locate the defendant in this case.

A committee of scientists, physicians, and economists has been appointed by President Butler of Columbia University to consider the establishment of a school of sanitary science and public health.

"HEADACHE, WEAKNESS, HEART TROUBLE"

"I Suffered With for Years—Pe-ru-na Cured Me Entirely."

Miss Albina Chauvin, No. 50 Rue Agnes, St. Henri, Montreal, Can., writes: "I consider Peruna better than any other remedy, as it cured me when nothing else could. I suffered for years and years with heart trouble, headache and weakness. I never expected to find anything to cure me. I saw one day, in 'La Presse,' that Peruna was excellent and I tried it. One bottle produced a change in me and if the price had been \$100 a bottle I would have paid it gladly. I have taken six bottles and am entirely cured. Please accept my thanks and best wishes for your Peruna."

"Please Accept My Thanks and Best Wishes For Your PE-RU-NA."

ALBINA CHAUVIN

Many cases of heart trouble are caused by reflex disturbances. Derangements of the stomach and liver produce symptoms of heart trouble. Catarrh of the stomach is a very frequent cause of sympathetic heart disease. Palpitation, shortness of breath and bloating after meals are the most prominent symptoms. The following wholesale druggists will supply the retail trade: BENSON, SMITH & CO., HONOLULU, HAWAII.

REGAL SHOES FOR WOMEN

Newest Fall Fashions

There are 119 new Fall Styles ready for you in the Regal Shoe Store. Each one expresses the latest custom footwear fashions.

There are sturdy, "mannish" models in dull calf, and the daintiest, lightest boots in fine kid and imported Patent Leathers, and many attractive styles in rich shades of Russet.

REGAL Quarter Sizes insure you perfect fit.

For Men

REGAL Shoes for Men are known everywhere as the top notch of refinement and good taste in shoes.

The Quarter Sizes appeal to men as much as to women, and are just as popular as the Women's Regals.

You can't do as well anywhere else at near the same price; that's one good reason for the popularity of the REGAL SHOE—High Quality in a Reasonably-Priced Shoe.
